[www.avg.com](http://www.avg.com)

In response to a number of comments from stakeholders and others, we have decided to use our model of the Passaic River to do a better job of quantifying the impact of the cleanup on the watershed - for e.g., what is the impact of dredging out all 11 mil yd3 of silts vs. 4 mil yd3 on the environment, what is the impact of disposing of those silts in a CAD in Newark Bay, etc....

We had always intended on addressing these issues qualitatively, but we are being pushed to be more quantitative, which means more modeling runs, which means more time.

Alice:

In looking at the schedule of deliverables, I see that the Focused Feasibility Study has been pushed back from this summer until Spring 2012. Why is that?

Thanks.

Steve Singer

**Subject:** Next Passaic River-Newark Bay PDT Meeting

Our next Passaic River-Newark Bay Project Delivery Team (PDT) meeting will be on June 1, 2011 at 1-3pm. It will be at the NJ Transit HQs Board Room on the 9th floor of One Penn Plaza East in Newark, NJ (thank you Janine MacGregor!).

Attached is an agenda and products table.

Please let me know if you will be attending, so that I can send a list to building security.
